15. TYPE OF ENDEAVOR: Bibliography

16. INDEXING TERMS (6-12)

administration of programs	high school	identification	modern language	
parent role	enrichment provisions	college	language arts	research
educator role	learning process	creativity	learning process	science
articulation	modern language	curriculum	mathematics	social studies
		the gifted	mental ability	

17. ABSTRACT (MAX. 250 WORDS)

Directed toward parents, educators, and others, the bibliography aims to improve the overall educational program for talented youth. Its divisions include basic references, administration of programs for the gifted, articulation in high school and college, creativity, enrichment provisions, curriculum programs for the gifted, identification of the gifted, language arts for the gifted, the learning process, mathematics education for the gifted, modern foreign language education for the gifted, parents and their gifted children, research on the gifted, science education, social studies education for the gifted, and teaching techniques. There are four supplements dated 1961, 1962, 1963, and 1964, which are nearly identical in content and format.

BIBLIOGRAPHY ON THE EDUCATION OF THE GIFTED

Mrs. Mary M. Pilch
Consultant On Education For Gifted

This is primarily a book list of basic references covering many relevant categories of concern in the education of our talented youth. The collection presents a balanced set of materials for educators, parents, and others interested in helping to improve their over-all educational program. The reader will find selections which tell about the characteristics of these students and how they may be identified; how to help them utilize their abilities; and how schools can develop plans, programs and courses of studies to better fit the needs of these pupils.
